“There is probably no separate period in a man’s life which stands apart more distinctly in his memory or with happier recollection than the years he spent in college. He responds most readily to the feeling of a common bond with his fellows in becoming a living vital part of his University. New and lasting friendships are made happily and easily. He finds his new-made friends sharing this exuberance of youth, and so it most naturally follows that he joins his fellows in fraternity and those closer ties of friendship which they choose to call “brotherhood.” ~Anonymous

Campaign Update Are You Up for the Challenge?

By Sean Lacey '78

The Phi Kappa Sigma Capital Campaign is moving into a new and exciting phase. We’ve had an initial response from many individuals which has put us almost half way towards our campaign goal of \$1,000,000. Now we want to expand our efforts and ensure that everyone has a chance to participate and help us over the finish line.

Our campaign class representatives have been working to identify the individual members of each pledge class within each decade. We have found that the pledge class level is where most people stay in contact with each other, and we have also discovered that there is a strong desire to contribute to the capital campaign and

be recognized as a pledge class.

We are striving to achieve 100% participation in the capital campaign from each member of every pledge class, no matter the size of the gift. You will be hearing more in the coming weeks about the “pledge class” challenge, and you can expect to hear from one of our class representatives regarding the participation and giving level of your pledge class. The Fall 1976 pledge class is the first to accept the challenge. As of this writing they have committed to 100% participation. Once all of their pledges are in we will be challenging each pledge class to match or exceed their totals.
